

Kanban board. Efficiency

Overall statistics

29,06	1,00	149
Avg number of days	Median number of days	Number of tasks

Stage ID	Stage name	Count tasks	Average of Days	Standard deviation of Days	Median of Days
187	Wish list	5	255,40	154,15	223
189	Product backlog	36	26,89	51,86	0
190	Sprint backlog	31	4,68	12,41	0
193	For payment	31	19,45	48,94	2
Total		103	29,06	74,54	1

The dashboard shows the average amount of time task spent on each stage of the Database Development Kanban Board. Typically, each task goes through several stages (columns):

- Wishlist, where every team member can post their ideas.
- Product backlog consists of approved tasks.
- Sprint backlog includes tasks in progress.
- The "For payment" column is used to track payments to the contractor.

Number of days by Stage
